Innovative Information Solutions

Personal Property Securities Register (PPSR)

Searching the PPSR – retrieve a nationally recognised search certificate detailing whether or not an encumbrance exists over a vehicle, boat, outboard motor or other item of collateral (consumer or commercial). Searches may be performed using Grantor details (individual name or organisation), serial number (VIN, HIN etc.) and/or the known registration number of an existing security interest. An Ordinal Search comparing two registrations is also available.

Create a registration/register a security interest – register, release, renew or update encumbrances. Organisations and individuals wishing to use this service must be part of a Secured Party Group (SPG) which can be created through CITEC Confirm.

Queensland traffic incident reports

This service is available to insurance companies, legal firms, loss assessors and mercantile agents.

Traffic incident reports – a detailed report, including (where possible): occurrence, witnesses, incident scene and event, crash description, unit details, towed vehicles, damaged property, victims and versions.

Document orders – an online ordering facility to retrieve available associated documents such as the initial Police Report (PT51), which may include a diagram/sketch drawn by an attending officer.

Queensland motor vehicle register

Registration search – information about the registration of motor vehicles, marine vessels, caravans and trailers.

Point in time registration search – provides historical registration details on caravans, trailers and motor vehicles registered in Queensland (online searches are available from June 1998). The search includes the same information as a registration search.

Owner name search – current information on vehicles owned by an individual.

Document ordering – covers the personalised plate search, dealer plate search, Vin/Chassis Number search and pre 9 June 1998 registration search.

Bulk enquiries – provides the ability to process up to 5000 transactions. This service is restricted to government agencies responsible for parking and traffic infringements.
